- B: Assessment Roll, a separate document**

## ENGINEER'S STATEMENT

This Report is prepared pursuant to Section 36600 et seq. of the California Streets and Highways Code (the "Property and Business Improvement District Law of 1994" as amended) (herein after "State Law") and pursuant to the provisions of Article XIID of the California Constitution (Proposition 218).

The Arts District Los Angeles Property-Based Business Improvement District ("PBID") will provide activities either currently not provided or are above and beyond what the City of Los Angeles provides. These activities will specially benefit each individual assessable parcel in the PBID. Every individual assessed parcel within the PBID receives special benefit from the activities identified under Section B of this Report. Only those individual assessed parcels within the PBID receive the special benefit of these proposed activities; parcels contiguous to and outside the PBID and the public at large may receive a general benefit, as outlined in Section E. The cost to provide general benefits, if any, will be funded from sources other than special assessments.

The duration of the proposed PBID is five (5) years, commencing January 1, 2014. An estimated budget for the PBID improvements and activities is set forth in Section D. Assessments will be subject to an annual increase of up to 5% per year as determined by the Owners' Association. Assessments must stay between 0 and 5% in any given year. Funding for the PBID improvements and activities shall be derived from a property-based assessment of each specially benefitted parcel in the PBID. A detailed description of the methodology for determining the proportional special benefit each individual assessable parcel receives from the service and the assessment for each parcel is set forth in Section F.

I hereby certify to the best of my professional knowledge that each of the identified assessable parcels located within the PBID will receive a special benefit over and above the benefits conferred to those parcels outside of the PBID boundary and to the public at large and that the amount of the proposed special assessment is proportional to, and no greater than the special benefits received.

Respectfully submitted,

A handwritten signature in black ink that reads "Terrance E. Lowell".

Terrance E. Lowell, P.E.

## SECTION A: LEGISLATIVE AND JUDICIAL REVIEW

### **Property and Business Improvement District Law of 1994**

The State Law is the legislation that authorizes the City to levy assessments upon the real property for the purposes of providing improvements and activities that specially benefit each individual assessed parcel in the PBID. The purpose of the PBID is to encourage commerce, investment, business activities and improve residential serving uses. In order to meet these goals, PBIDs typically fund activities and improvements, such as, enhanced safety and cleaning. Unlike other assessment districts which fund the construction of public capital improvements or maintenance thereof, PBIDs provide activities and improvements "to promote the economic revitalization and physical maintenance of the business districts of its cities in order to create jobs, attract new businesses, and prevent the erosion of the business districts." (Streets and Highways Code Section 36601(b)). The improvements and activities funded through the PBID are over and above those already provided by the City within the PBID's boundaries. Each of the PBID activities or improvements is intended to increase building occupancy and lease rates, to encourage new business development, attract residential serving businesses and services.

Specifically, the State Law defines "Improvements" and "Activities" as follows:

*"Improvement" means the acquisition, construction, installation, or maintenance of any tangible property with an estimated useful life of five years..."<sup>1</sup>*

*"Activities" means, but is not limited to, all of the following:*

- (a) Promotion of public events which benefit businesses or real property in the district.*
- (b) Furnishing of music in any public place within the district.*
- (c) Promotion of tourism within the district.*
- (d) Marketing and economic development, including retail retention and recruitment.*
- (e) Providing safety, sanitation, graffiti removal, street and sidewalk cleaning, and other municipal services supplemental to those normally provided by the municipality.*
- (f) Activities which benefit businesses and real property located in the district."<sup>2</sup>*

Under State Law, parcels that are zoned solely residential or agricultural are presumed to receive no benefit from a PBID. There are no parcels within the District zoned solely residential or agricultural.

### **Article XIID of the State Constitution**

In 1996, California voters approved Proposition 218, codified in part as Article XIID of the State Constitution. Among other requirements, Article XIID changes the way local agencies enact local taxes and levy assessments on real property. It states, in relevant part, that:

*(a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel*

<sup>1</sup> California Streets and Highways Code, Section 36610.

<sup>2</sup> California Streets and Highways Code, Section 36613.

*which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.*

*(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California<sup>3</sup>.*

*"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."<sup>4</sup>*

### **Judicial Guidance**

Since the enactment of Article XIID, the courts have rendered opinions regarding various aspects of Article XIID. The notable portions of cases that apply to assessment districts in general and this PBID in particular are noted below.

*"The engineer's report describes the services to be provided by the PBID; (1) safety, (2) streetscape maintenance (e.g., street sweeping, gutter cleaning, graffiti removal), and (3) marketing, promotion, and special events. They are all services over and above those already provided by the City within the boundaries of the PBID. And they are particular and distinct benefits to be provided only to the properties with the PBID, not to the public at large—they "affect the assessed property in a way that is particular and distinct from {their} effect on other parcels and that real property in general and the public at large do not share."<sup>5</sup>*

*"...separating the general from the special benefits of a public improvement project and estimating the quantity of each in relation to the other is essential if an assessment is to be limited to the special benefits."<sup>6</sup>*

*"...the agency must determine or approximate the percentage of the total benefit conferred by the service or improvement that will be enjoyed by the general public and deduct that percentage of the total cost of the service or improvement from the special assessment levied against the specially benefitted property owners."<sup>7</sup>*

*"...even minimal general benefits must be separated from special benefits and quantified so that the percentage of the cost of services and improvements representing general benefits, however slight, can be deducted from the amount of the cost assessed against specially benefitting properties."<sup>8</sup>*

The contents of this Engineer's Report are prepared in compliance with the above noted authorizing legislation, the State Constitution and the judicial opinions.

## SECTION B: IMPROVEMENTS AND ACTIVITIES

Through a series of property owner meetings the Arts District Los Angeles Business Improvement District Renewal Committee collectively determined the priority for improvements and activities to be delivered by the business improvement district. The primary needs as determined by the property owners are:

### ◆ Safety and Cleaning

Based upon these findings, the following improvement and activity categories are recommended for the PBID. The following narrative provides recommendations for the PBID's first year of operation. Final programs and budgets will be subject to the review and approval of the PBID Owners' Association and City Council.

### ***CLEAN and SAFE***

#### **Safe Team Program**

The Safety Program will provide safety services for the individual assessed parcels located within the District in the form of patrolling bicycle personnel, and nighttime vehicle patrol. The purpose of the Safe Team Program is to prevent, deter and report illegal activities taking place on the streets, sidewalks, storefronts, parking parcels and alleys. The presence of the Safe Team Program is intended to deter such illegal activities as public urination, indecent exposure, trespassing, drinking in public, prostitution, illegal panhandling, illegal vending and illegal dumping. During the period January 1, 2011 to May 2013 the Safe Team made 88,901 service calls to parcels within the District to address the issues stated above. The Program will supplement, not replace, other ongoing police, safety and patrol efforts within the District. The Safe Team Program will maintain communication with the Los Angeles Police Department (LAPD) area patrols and intends to report illegal activities to the LAPD. The Safe Team Program will only provide its services to assessed properties within the District boundaries. These services are a special benefit to individually assessed parcels because illegal activities deter customers from visiting the district and residents from living in the district. The special benefit to assessed parcels from these services is an increased likelihood of improved lease rates and tenant occupancy because of an increase in commercial activity, an increase in customers and an increase in residential serving businesses.

A study published in *The Economic Journal* on the impacts 30 Los Angeles (Property) Business Improvement Districts (BID) have on public safety indicates that for every "additional \$10,000 spent by BIDs on private safety it reduces the average number of crimes per neighborhood by 3.37...and 1.65 fewer arrests. Crime specific results indicate that most of the reduction in arrests is for robbery and assault ... BIDs clearly pass a cost-benefit test".<sup>9</sup>

#### **Clean Team Program**

In order to consistently deal with cleaning issues, the Arts District Los Angeles Business Improvement District Cleaning Program will continue the work that began in 2007. Basic cleaning services, such as trash pickup and removal from the district, equipment expense and management are delivered to the District. The clean team will only provide service to assessed parcels within District boundaries. These services are a special benefit to individually

<sup>9</sup> Cook, Philip, and John MacDonald. 2011. "Public Safety through Private Action: An Economic Assessment of BIDs." *The Economic Journal*, 121 (May) 445-462.

assessed parcels because dirty sidewalks, trash, and graffiti deter customers from visiting the district and residents from living in the district. The special benefit to assessed parcels from these services is an increased likelihood of improved lease rates and tenant occupancy because of an increase in commercial activity, an increase in customers and an increase in residential serving businesses. In order to consistently deal with cleaning issues, a multi-dimensional approach has been developed consisting of the following elements.

**Sidewalk Cleaning:** Uniformed, radio equipped personnel sweep litter, debris and refuse from sidewalks and gutters of the District. District personnel will pressure wash the sidewalks.

**Trash Collection:** Collector truck personnel collect trash from sidewalk trash receptacles as needed. District trucks are often called to dispose of illegal food vendors' inventory. They are also dispatched to collect large bulky items illegally dumped in the District.

**Graffiti Removal:** District personnel remove graffiti by painting, using solvent and pressure washing. The District maintains a zero tolerance graffiti policy. An effort is made to remove all tags within 24 hours on weekdays.

#### **MANAGEMENT AND ADMINISTRATION OFFICE EXPENSE**

The improvements and activities are managed by a professional staff that requires centralized management support. Management staff oversees the District's services which are delivered seven days a week. Management staff actively works on behalf of the District parcels to insure that City and County services and policies support the District. Included in this item are management labor, office expense and organizational expenses such as insurance, the cost to conduct a yearly financial review, a quarterly newsletter and Arts District web site maintenance. The special benefit to assessed parcels from these services is an increased transparency of District programs and financial transactions which will be available to parcel owners in the newsletter and on the web site, an increased likelihood of improved lease rates and tenant occupancy because of an increase in commercial activity, an increase in customers and an increase in residential serving businesses in part due to the work of the management staff as stated above

#### **CONTINGENCY AND CITY FEES**

Included in this budget item are City fees to collect and process the assessments, a reserve for uncollectible assessments, depreciation and funding to repay, over the five year life of the District, loans of \$75,000 that were incurred to finance District establishment costs.

## SECTION C: BENEFITTING PARCELS

### ***PBID Boundary***

Article XIII D Section 4(a) of the State Constitution requires that the authorizing agency "Identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed".

The Arts District Los Angeles Business Improvement District includes all property within a boundary formed by: **(Also see map on page 10)**

The proposed Arts District Los Angeles Business Improvement District area contains all property within the following boundary description: Beginning on the southeast corner of Alameda Street and the 101 Freeway go east along the southern boundary of the 101 Freeway right of way to the Los Angeles River. At the Los Angeles River go south along the western boundary of the Los Angeles River to 7<sup>th</sup> Street. Turn west on 7<sup>th</sup> along the south property line of properties on the north side of 7<sup>th</sup> Street to the intersection with the west property line of parcel 5164-019-018. Turn north along the west parcel line of parcels facing on the west side of Santa Fe Avenue to the intersection with the south parcel line of parcels facing on the south side of 6<sup>th</sup> Street. Turn west along the south parcel line of parcels facing on the south side of 6<sup>th</sup> Street to the intersection with Alameda Street. Go north on Alameda St to the intersection at 3<sup>rd</sup> Street. At 3<sup>rd</sup> St. turn eastbound, then north along the western boundary of parcel 5163-009-006. Go west along the northern property line of parcels 5163-009-006 and 004. Go north on Rose St until the intersection of Traction Avenue. Go southeast on Traction, then turn east along 3<sup>rd</sup> Street until the western property line of parcel 5163-007-010. Turn north at the western property line of parcel number 5163-007-010, follow this to the northern property line of parcel 5163-007-010. Turn east along the north property line of parcel 5163-007-010 to Garey Street. Turn north on Garey St to the intersection with 2<sup>nd</sup> Street. Turn west on 2<sup>nd</sup> Street until parcel 5163-003-019. Turn north along the western property lines of parcels 5163-003-019, 016, 014, 013, 011, 010, 009, 008, 006. Go east along the northern property line of parcel 5163-003-006. Continue east across Garey St. along the northern property lines of parcels 5163-004-004, 006, 011, and 007. Turn north on Vignes Street through the intersection at 1<sup>st</sup> Street. Continue north on Vignes St. to parcel 5173-013-014 and turn east along the northern property line of this parcel, then south along the eastern line of this parcel. Turn east on 1<sup>st</sup> Street to the western property line of 5173-013-020, then north along that parcels western property line to Banning Street. Turn west on Banning St., then north on Vignes St. to Temple Street. Go west on Temple until Garey St. Go north on Garey St. to Ducommun Street. Go west on Ducommun St. until Alameda St. Turn north on Alameda Street until the beginning point at the intersection with the 101 Freeway.

### **District Boundary Rationale**

The property uses within the general boundaries of the Arts District Business Improvement District are a mix of small industrial, retail, education, religious, parking, office and live-work. Services and improvements provided by the District are designed to provide special benefits to the individually assessed primarily small industrial, retail, education, religious, parking, office and live-work in the form of improving the economic and environmental vitality by increasing building occupancy and lease rates, encouraging new business development, attracting residential serving businesses and services, attracting office tenants, attracting retail customers and encouraging commerce. All of the services provided such as the safety work provided by the Safe Team and the cleaning work provided by the Clean Team are services that are over and above the City's baseline of services and are not provided by the City. These services are

not provided outside of the District because of the unique nature of these services focusing on the particular needs of each assessed parcel within the District. These services provide particular and distinct benefits to each of the assessed parcels within the District.

In order to ensure that parcels outside of the District will not specially benefit from the improvements and services funded with the assessment, improvements and services will only be provided to individual assessed parcels within the boundaries of the District. Specifically, safety patrols, cleaning / sanitation personnel, and similar service providers employed in connection with the District will only patrol and provide services to individual assessed parcels within the District.

Northern Boundary: The northern boundary of the Arts District Business Improvement District is the 101 Freeway. The 101 Freeway acts as a barrier on the northern boundary and acts to ensure that parcels outside of the District will not specially benefit from the unique improvements and services funded with the assessment. Improvements and services will only be provided to individual parcels within the boundaries of the District.

Eastern Boundary: The eastern boundary of the Arts District Business Improvement District is the Los Angeles River. The Los Angeles River acts as a barrier in order to ensure that parcels outside of the District will not specially benefit from the unique improvements and services funded with the assessment. Improvements and services will only be provided within the boundaries of the District. Specifically, security patrols, maintenance personnel, and similar service providers employed in connection with the District will only patrol and provide services to individual parcels on the streets and sidewalks within the District, and will not provide services outside of District boundaries.

Southern Boundary: The southern boundary of the Business Improvement District was determined by the mix of uses of the parcels south of the District boundaries. The parcels south of the District boundaries are primarily large industrial uses, rather than retail, live-work, and small industrial uses within the district to the north. Large industrial use parcels have limited access points, are entirely inward focused and generally do not interact with the community around them and do not generate business from the District. A cleaner and safer community around these large industrial uses will not provide special benefit in the form of increased commerce or lease rates. They will not benefit from the District programs that are designed to provide special benefits to retail, education, religious, parking, office and small industrial uses. Small industrial use parcels tend to have several tenants on one parcel and several access points. Small industrial use parcels generally interact with the community around them and generally generate a portion of their business from the District. A cleaner and safer community around these small industrial uses will provide special benefit in the form of increased likelihood of increased commerce and lease rates. In order to ensure that parcels outside of the District will not specially benefit from the unique improvements and services funded with the assessment, improvements and services will only be provided within the boundaries of the District. Specifically, security patrols, maintenance personnel, and similar service providers employed in connection with the District will only patrol and provide services to individual parcels on the streets and sidewalks within the District, and will not provide services outside of District boundaries.

Western Boundary: The western boundary of the Arts District Business Improvement District south of 3<sup>rd</sup> Street is Alameda Street which is a very high volume truck route acting as a barrier between parcels on the west side and parcels on the east side of Alameda Street (within the

District). South of 3<sup>rd</sup> Street the western boundary of the Arts District abuts the eastern boundary of the Downtown Industrial Business Improvement District (BID) which provides improvements and activities similar to those proposed to be provided by the Arts District Business Improvement District. North of 3<sup>rd</sup> Street the western boundary of the Arts District abuts the eastern boundary of the Little Tokyo Business Improvement District (BID) which provides improvements and activities similar to those proposed to be provided by the Arts District Business Improvement District. Additionally, State law indicates that proposed districts, such as the Arts District BID, cannot expand into existing, established PBID district boundaries, such as the adjacent Downtown Industrial BID.

In order to ensure that parcels outside of the District will not specially benefit from the unique improvements and services funded with the assessment, improvements and services will only be provided within the boundaries of the District. Specifically, security patrols, maintenance personnel, and similar service providers employed in connection with the District will only patrol and provide services to individual parcels on the streets and sidewalks within the District, and will not provide services outside of District boundaries.

## SECTION D: PROPORTIONAL BENEFITS

### ***Methodology***

Article XIIID Section 4(a) of the State Constitution requires "The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of the public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided".

Determining the proportionate special benefit among the parcels of real property within the proposed assessment district which benefit from the proposed Improvements is the result of a four-step process:

1. Defining the proposed activities,
2. Determining which parcels specially benefit from the proposed activities,
3. Determining the amount of special benefit each parcel receives,
4. Determining the proportional special benefit a parcel receives in relation to the amount of special benefit all other parcels in the District receive.

Each identified parcel within the District will be assessed based upon each parcel's unique characteristics in relationship to all other specially benefitted parcels' characteristics. Due to the proportionate special benefits received by each parcel from the District services, each parcel will be assessed a rate which is commensurate with the amount of special benefits received.

### ***Special Benefit Factors***

The method used to determine proportional special benefits are measured by each parcel's building size plus parcel size compared to the total building square footage and parcel square footage of all parcels in the District boundary.

The use of each parcel's assessable parcel square footage and building square footage is the best measure of benefit for the programs because the intent of the District activities is to improve the safety of each individual parcel, to increase building occupancy and lease rates, to encourage new business development and attract ancillary businesses and services for parcels within the District.

**Gross Building Square Footage:** 50% of the PBID budget is allocated to the gross building square footage. This acknowledges the short and midterm benefits for interim uses. The gross building square footage is determined by the outside measurements of a building and confirmed by the City of Los Angeles City Clerk's office.

**Parcel Square Footage:** 50% of the PBID budget is allocated to the parcel square footage acknowledging the highest and best use of the property and the long term benefits each parcel receives from the PBID activities. Parcel square footage is defined as the total amount of area within the borders of the parcel, as defined in the County Assessor's parcel maps.

## SECTION E: SPECIAL and GENERAL BENEFITS

State Law, Proposition 218, and judicial opinions require that assessments be levied according to the estimated special benefit each assessed parcel receives from the activities and improvements. Article XIID Section 4(a) of the California Constitution in part states "only special benefits are assessable" which requires that we separate the general benefits, if any, from the special benefits provided by the proposed activities and improvements. Further clarification from the Golden Hill judicial opinion states that "even *minimal* general benefits must be separated from special benefits and quantified so that the percentage of the cost of services and improvements representing general benefits, however slight, can be deducted from the amount of the cost assessed against specially benefitting properties". A special benefit as defined in Article XIID means a particular and distinct benefit over and above general benefits conferred on real property located in the PBID or to the public at large.

The special benefit to parcels from the proposed PBID activities and improvements described in this Report is equal to or exceeds the total amount of the proposed assessment. Each individual assessed parcel's assessment is no greater than the special benefit it receives from the PBID services. The quantitative analysis of determining the special and general benefit is provided below.

### ***Special Benefit***

All special benefits derived from the assessments outlined in this Report are for property related activities directly benefiting each individual assessed parcel in the PBID. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect on other parcels and that real property in general and the public at large do not share.

The PBID's purpose is to encourage commerce, investment, business activities and improve residential serving uses. The PBID funds activities and improvements to provide a cleaner and safer environment as outlined in Section B with the goal of increasing pedestrian traffic, increasing commerce and filling vacant storefronts, office space and residential properties. By presenting a more attractive, safer and vibrant destination, there is a likelihood of increased pedestrian traffic, increased business activities and improved residential serving uses.

Improving the public safety makes locations more attractive for businesses. When business location decisions are made, "lower levels of public safety lead to increased uncertainty in decision making and can be perceived as a signal of a socio-institutional environment unfavorable for investment. Uncertainty affects the investment environment in general. But in particular, it increases the fear of physical damage to investment assets (or to people) or their returns...Almost universally, places with lower crime rates are perceived as more desirable".<sup>10</sup> Once economic investment occurs within the district, pedestrian traffic and commercial activity will increase. The special benefit to assessed parcels from these services is the likelihood of increased lease rates and tenant occupancy because of the increase in commercial activity and an increase in District customers that follow from having a cleaner and safer area.

Since business and economic development encourages pedestrian traffic and presumably livability we need to quantify the number of people that are in the District that either engage in commerce and/or reside in the PBID. The Arts District Los Angeles contracted with Farrand

<sup>10</sup> "Accelerating economic growth and vitality through smarter public safety management" IBM Global Business Services Executive Report, September 2012, pg. 2

Research to conduct intercept surveys within the PBID boundary to determine to what degree respondents engage in any type of business activity (going to a restaurant; shop for art related items; visit an art gallery; conduct personal business, e.g. visit a bank, beauty salon, tailor, dry cleaner; attend a performing arts event; attend school/take a class, attend a festival or special event). The survey included 397 participants, with a margin of error of 4.9%, and was conducted on December 20 and 22, 2012 at separate locations within the PBID with all efforts made to include an unbiased cross section of participants. The margin of error is determined by calculating the square root of the number of participants and dividing the square root into 1

The intent of the survey is to determine how many of the respondents intend to engage in commerce and/or chose to live within the District and whether any of the PBID activities influenced their decision. If the respondent indicated that they intend to engage in commerce and that any of the PBID activities influenced their decision to be in the District, then the PBID activities provide a special benefit to the assessed parcels. Of the 397 respondents, 325 answered question one "Are you likely to stroll or walk around or simply wait to make a transit connection" that they were likely either today or in the future to engage in this activity. Each of these 325 respondents also answered questions 2 through 7 that they were very likely to slightly likely to engage in one of the economic activities in questions 2 through 7. All 397 of the respondents answered at least one of the questions 2 through 7 that they would engage in at least one of the economic activities. None of the respondents answered both question one positively which would indicate that they had no intention of engaging in any economic activity and questions 2 through 7 negatively which would indicate they have no intent to engage any economic activities listed on the survey. Based upon the answers to survey questions 1 through 7 it means that 397 or 100% of the respondents indicated that they will and intend to engage in at least one of the economic activities asked in the survey as opposed to "just passing through" the PBID with no business purpose. The survey also found that of the 397 respondents all answered that at least one of the PBID activities defined in questions 8 through 12 contributed to their being in the District and engaging in one of the economic activities. None responded that none of the proposed PBID activities contributed to their decision to come to the District and engage in commerce. Therefore 100% did indicate that at least one of the proposed PBID activities will contribute to their decision to come to the District and engage in commerce. The summary from the survey results states:

#### SUMMARY

	<u>Total</u>
Likely to perform at least one non-strolling/transit connection activity in Q1-Q7:	397 (100%)
Not at all likely to perform any non-strolling/transit connection activities in Q1-Q7:	0 (0%)
Not at all likely to perform any non-strolling/transit connection activities and said "Not at all important" to all features in Q.8-12:	0 (0%)

The final survey results are attached as Attachment A to this report.

Based on the results of the survey as detailed above which determined that at least one of the proposed PBID activities will contribute to their decision to come to the District and engage in commerce, we reasoned that the proposed PBID services and activities provides special benefits to the real property within the PBID. Article XIID Section 4(a) of the state Constitution states "An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed".

All individually assessed parcels specially benefit from all the PBID activities. In particular, each

parcel will benefit from the Safe and Clean services that will make each parcel cleaner and safer, such as: increased safety patrol<sup>11</sup>, removing graffiti from buildings, picking up trash that pedestrians leave behind, weeding and power-washing sidewalks which directly relates to increases in commercial activity, filling of vacant storefronts, offices, residential property and then ultimately, increased lease rates for retail, office space and residential property. All specially benefitted parcels will be assessed based on their proportional share of the special benefits received from the PBID activities.

**Publicly Owned Parcels:** All publicly-owned parcels will pay their proportional share of costs based on the special benefits conferred to those individual parcels. Article XIIID of the State Constitution contemplates payment of assessments by governmental entities. Section 4(a) of Article XIIID states in relevant part that "Parcels within a district that are owned or used by any agency... shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit."

#### **Metropolitan Transportation Authority (MTA) Assessments**

MTA parcels located on railroad right of way that do not contain any street frontage do not benefit from Arts District BID services. These parcels have a \$0.00 assessment. These parcels do not receive any benefit because 100% of the services are clean and safe which are delivered to the street frontage of parcels. The remaining service is administrative/management services which are tied to the delivery of clean and safe services, those parcels without street frontage do not benefit from these services. Those parcels on a railroad right of way fronting a street benefit from Arts District services and pay 100% assessment.

#### **General Benefit**

As required by the State Constitution Article XIIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that are attributed to general benefit are deducted from the cost assessed against each specially benefitted parcel. General benefits are benefits from the PBID activities and improvements that are not special in nature, are not "particular and distinct" and are not over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits that (1) parcels outside of PBID may receive, and (2) the public at large may receive.

#### **General Benefit to Parcels Outside of PBID**

All the PBID activities and improvements are provided to each of the individual assessed parcels in the PBID boundary. No PBID activities will be specifically provided to any parcel outside of the PBID boundary. However, it is conceivable to conclude that some parcels outside of the PBID boundary may receive some spillover benefit from the Safe and Clean activities.

In the case of the PBID, the parcels considered outside of the PBID's boundary that may receive a general benefit are those parcels that are immediately adjacent to or immediately across the street from where the PBID services are delivered. In order to calculate the general benefit parcels adjacent to the Arts District Los Angeles PBID may receive, the percentage of each PBID activity budget attributed to these parcels must be determined. The table below shows the budgets for each of the PBID activities that may have spillover benefit and their respective percentage of the total PBID budget. We then need to apply a Relative Benefit factor

---

<sup>11</sup> The study published in the Economic Journal, cited previously in footnote 9, indicates that 30 Los Angeles BIDs that provide safety services resulted in crime reduction within those districts.

to each of the activities accounting for the potential benefit parcels outside of the district may receive. The relative benefit factor is a basic unit of measure that compares the benefit that parcels within the District receive compared to parcels outside of the District. Since the parcels in the District boundary receive 100% of the special benefit they are assigned a relative benefit factor of 1.0 for each PBID activity. Since the parcels outside of the district boundary do not directly receive any PBID activity they are assigned a benefit factor less than 1.0 for each PBID activity. There is no scientific method to determine the respective relative benefit, however in our professional experience of over 50 years as a Registered Civil Engineer the relative benefit factors are reasonable to conclude.

In the case of the Arts District Los Angeles, Safe and Clean may have a spillover benefit in that parcels immediately adjacent to the PBID boundary may visually see the effects of the PBID services, e.g. cleaner sidewalks, safety patrols, and buildings without graffiti. The relative benefits of the safe and clean program can clearly be seen and are limited to District frontage adjacent to parcels outside the District. A visitor can clearly see the difference between parcels in the District and those outside. Based upon our experience the relative benefit factor for Safe and Clean is 0.25. The relative benefit factors are then multiplied by the PBID activity's budget percentage to determine the overall benefit factor. The following table illustrates this calculation.

<b><u>PBID Activities Budget:</u></b>	<b>Budget</b>	<b>Percent of Total</b>	<b>x</b>	<b>Relative Benefit *</b>	<b>=</b>	<b>Benefit Factor</b>
Budget for Safe and Clean:	\$835,580	74.44%		0.25		0.1861
<b>TOTAL PBID Assessment Budget:</b>	<b>\$1,122,536</b>					<b>0.1861</b>

Based on the criteria of identifying parcels outside of the PBID boundary there are 63 parcels that do not directly receive the PBID activities but may receive some spill-over benefit. Of those 63 parcels, 23 are within other adjoining PBID boundaries. These parcels do not benefit to the same degree as other parcels that are not within a PBID as these parcels are currently assessed for and receive special benefit from similar PBID activities. Therefore these 23 parcels receive 50% the benefit of the other adjacent parcels. There is no scientific method to determine the respective percent of reduced benefit parcels outside the PBID, but within an adjoining PBID receive, however in our professional experience of over 50 years as a Registered Civil Engineer the relative benefit factors are reasonable to conclude and provide a conservative estimate of possible general benefit.

The parcels outside of the PBID boundary not in another PBID are assigned a total benefit factor of 0.1861 to account for the fact that they may benefit from the Safe and Clean activities that may encourage commerce not only within the PBID boundary but immediately adjacent to it. For parcels that are immediately adjacent to the PBID boundary but are included in another PBID their benefit factor is 50% of the 0.1861 acknowledging their benefit from their own PBID activities. Therefore, these 23 parcels have a benefit factor of 0.0931 (0.1861 x 50%). Both of these benefit factors are reflected in the table below.

In comparison, there are 728 parcels within the PBID boundary, all of which receive a benefit factor of 1.0 acknowledging that they receive 100% special benefit from the PBID activities. To calculate the general benefit percentage, the respective benefit factors must be applied to the number of parcels both within the PBID boundary and those that are outside of the PBID boundary. The table below shows the calculation for the general benefit percentage.

	No. of Parcels	Benefit Factor	Total Benefit Units
No. of parcels in District:	753	1.00	753
No. of parcels adjacent to district boundary in other PBIDs	23	0.0931	2.14
No. of parcels adjacent to district boundary not in other PBID	40	0.1861	7.44
Total number of parcels	2151		762.58

General Benefit to parcels outside of district boundary

1.26%

$(2.14+7.44)/762.58$

All Calculations are rounded up or down to two decimal places

### **General Benefit to the Public At Large**

In addition to the general benefit to the parcels outside of the PBID boundary, there may be general benefits to the public at large, those people that are either in the PBID boundary and not specially benefitted from the activities or people outside of the PBID boundary that may benefit from the PBID activities. In the case of the PBID the public at large are those people that are within the PBID boundary that do not pay an assessment and do not specially benefit from the PBID activities. To quantify this, a determination is made of how many people are in the PBID boundary regardless of the PBID activities or that the PBID activities do not influence their decision to be in the District.

Referencing back to the Farrand Research survey, the answers to survey questions 1 through 7 indicate that 397 or 100% of the respondents will and intend to engage in at least one of the economic activities asked in the survey as opposed to "just passing through" the PBID with no business purpose. The survey also found that of the 397 respondents all answered that at least one of the PBID activities defined in questions 8 through 12 contributed to their being in the District and engaging in one of the economic activities. Also when factoring in "just slightly important" with the "not at all important" responses did not yield any difference in the benefit calculation. What this indicates is 0.0% (0 divided by 397) of the respondents are within the District boundary and not conducting any economic activity regardless of the PBID provided activities. This percentage of 0 may be attributed to a general benefit.

### **Total General Benefits**

Using the sum of the two (2) measures of general benefit described above (1.26 + 0), we find that approximately 1.26% of the benefits conferred by the PBID activities may be general in nature and will be funded from sources other than special assessments.

## SECTION F: COST ESTIMATE

### 2014 Operating Budget

The Arts District Los Angeles 2014 calendar year operating budget takes into consideration:

1. The improvements and activities needed to provide special benefits to each individual parcel within the District boundary (Section B),
2. The parcels that specially benefit from said improvements and activities (Section C), and
3. The costs associated with the special and general benefits conferred (Section E).

Assessment Variable	Clean & Safe	Management & Administration	Contingency, City Fees	Total
Parcel Square Footage	\$417,790	\$107,414	\$36,064	\$561,268
Building Square Footage	\$417,790	\$107,414	\$36,064	\$561,268
<b>Total Budget</b>	<b>\$835,580</b>	<b>\$214,828</b>	<b>\$72,128</b>	<b>\$1,122,536</b>

Assessment Variable	Total District Budget	Less General Benefit @ 1.26%	Total Funded Budget by Property Assessments
Parcel Square Footage	\$561,268	\$7072	\$554,196
Building Square Footage	\$561,268	\$7072	\$554,196
<b>Totals</b>	<b>\$1,122,536</b>	<b>\$14,144</b>	<b>\$1,108,392</b>

### Budget Notations

1. The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. Assessments will be subject to an annual increase of up to 5% per year to address changes in the cost of providing services. The actual amount of increase will be determined by the Owners Association and will vary between 0% and 5% in any given year. Any change will be approved by the owner's association board of directors and submitted to the City within its annual planning report.
2. The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The owners association shall have the right to reallocate up to 10% of the budget allocation by line item within the budgeted categories. The management/administration line item may only be increased by the annual increase subject to the 5% cap and cannot be increased

through the 10% budget reallocation. Any change will be approved by the owner's association board of directors and submitted to the City of Los Angeles within its annual planning report. Pursuant to Section 36650 of the California Streets and Highways Code. The overall budget shall remain consistent with this Management District Plan.

## SECTION G: APPORTIONMENT METHOD

In order to assess for the special benefit each parcel receives from the PBID activities a number of factors enter into the determination of how much weight is to be given to each assessment variable, parcel and building. Historical data from the last 7 years detailing the type and level of clean and safe service delivery to each individual assessed parcel was reviewed in relationship to both the parcel size and the building square footage. The relationship between the current assessable footage and historical assessable footage of each of the two assessment variables to each other and the total of all assessment variables was reviewed. The result of this process was to confirm the validity of the weighting that was determined with the original 2007 establishment of the District. Equal weighting is placed on gross parcel square footage which reflects the more substantial long term value impacts on highest and best use and building square footage which reflects the interim use of a property and is utilized to measure short and mid-term value impacts received from the activities and the cost to provide that level of benefit and then spreading the cost over the total assessable footage for the District.

The table below summarizes the assessable footages for the parcel square footage and building square footage:

Parcel Square Footage	8,341,425
Building Square Footage	6,330,150

### **Calculation of Assessments**

Based on the special benefit factors, assessable footages for each variable plus the budget identified for each variable in the chart on page 15, all of which are discussed above, the following table illustrates the first year's maximum annual assessment per parcel square foot plus building square foot.

#### **Assessment Rate Calculation:**

Total Assessment Budget \$1,108,392

Parcel Footage Budget- \$554,196 (50%)

Building Footage Budget- \$554,196 (50%)

Parcel Assessment =  $\$554,196 / 8,341,425$

Building Assessment =  $\$554,196 / 6,330,150$

Based upon the methodology as set forth above, first year assessments are established as follows.

Parcel Square Foot Assessment Rate	\$0.06644
Building Square Foot Assessment Rate	\$0.08755

For example, to calculate the assessment for a parcel with a 100,000 square foot building, and a 20,000 square feet of parcel = building square footage x building square foot assessment rate, plus parcel square footage x parcel square foot assessment rate = the total annual parcel assessment.

$$(100,000 \times \$0.08755) + (20,000 \times \$0.06644) = \\ \$10,083.80 \text{ initial annual parcel assessment}$$

The assessment calculation is the same for every parcel in the District.

### Government Assessments

The Arts District Los Angeles PBID will provide all the improvements and activities to the City of Los Angeles or any other government-owned parcels within the PBID boundary. All publicly-owned parcels will pay their proportional share of costs based on the special benefits conferred to those individual parcels. The special benefit to government assessed parcels from these services is an increase in District customers, and an increased likelihood of attracting and retaining employees that follow from having a cleaner and safer area. Public owned parcels will receive special benefit in the form of increased use of the public facilities, increased attraction and retention of employees, which directly relates to fulfilling their public service mission. See Engineers Report page 13 for publicly owned parcels special benefit designation. Article XIII D of the California Constitution was added in November of 1996 to provide for these assessments. It specifically states in Section 4(a) that *"Parcels within a district that are owned or used by any agency...shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit."* Below is a list of the publicly-owned parcels and their respective assessments.

APN	Ownership	Site Address	FINAL LOT	FINAL BLDG	2014 Total Asmt	%
5173-001-900	LA City		27,417	19,789	\$3,554.06	0.32%

### **Maximum Annual Assessment Adjustments**

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. Assessments will be subject to an annual increase of up to 5% per year to address changes in the cost of providing services. The actual amount of increase will be determined by the Owners Association and will vary between 0% and 5% in any given year. Any change will be approved by the owner's association board of directors and submitted to the City within its annual planning report.

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The owners association shall have the right to reallocate up to 10% of the budget allocation by line item within the budgeted categories. The management/administration line item may only be increased by the annual increase subject to the 5% cap and cannot be increased through the 10% budget reallocation. Any change will be approved by the owner's association board of directors and submitted to the City of Los Angeles within its annual planning report. Pursuant to Section 36650 of the California Streets and Highways Code. The overall budget shall remain consistent with this Management District Plan.

### **Budget Adjustment**

Any annual budget surplus or deficit will be rolled into the following year's District budget. The budget will be set accordingly, within the constraints of the management plan to adjust for surpluses or deficits that are carried forward.

### ***Future Development***

As a result of continued development, the District may experience the addition or subtraction of assessable commercial footage for parcels included and assessed within the District boundaries. The modification of parcel improvements assessed within the District may then change upwards or downwards the amount of total footage assessment for these parcels. In future years, the assessments for the special benefits bestowed upon the included PBID parcels may change in accordance with the assessment methodology formula listed in the Management District Plan and Engineer's Report provided the assessment rate does not change. If the assessment formula changes, then a Proposition 218 ballot will be required to approve the changes.

## **SECTION H: ASSESSMENT ROLL**

The total assessment amount for 2014 is \$1,108,392 apportioned to each individual assessed parcel. For a complete listing of assessed parcels, please see Attachment B: Assessment Roll, attached as a separate document.

# Attachment A

## Downtown Los Angeles Arts District Proposed Property Based Improvement District Visitor Survey

Summary of Quantitative Research and  
Cross Tabulation Tables

December 2012

## FINAL RESULTS: Downtown Los Angeles Arts District PBID Visitor Survey

SAMPLE SIZE = 397; MARGIN OF ERROR = 4.9%

INTERVIEW DATES: December 20-22, 2012

Hello, my name is \_\_\_\_\_; I work for a public opinion research firm conducting a study of visitors to the Arts District. We would like to ask you some questions that will just take a couple of minutes.

A. Do you live within the Arts District Property-Based Business Improvement District? [SHOW MAP] Yes: 88 No: 309

B. Do you work within the Arts District Property-Based Business Improvement District? [SHOW MAP] Yes: 136 No: 261

Now, I am going to read a list of activities. For each one I read, please tell me how likely you think it is that you will do that activity either today, or at ANY point in the future, while in the Arts District. Please tell me if you are very likely, somewhat likely, slightly likely, or not at all likely to do the following either today or at ANY point in the future...

	Very Likely	Somewhat Likely	Slightly Likely	Not at All Likely
1. Stroll or walk around OR simply wait to make a transit connection	187	79	59	72
2. Eat or drink at a restaurant, café, or bar	316	59	20	2
3. Shop/visit an art gallery	141	138	73	45
4. Attend a performing arts event/live theater	121	125	92	59
5. Attend school, take a class	40	29	78	250
6. Attend a festival or special event	163	123	68	43
7. Walk your dog/visit the dog park	73	13	17	294

Now, I am going to read a list of features. For each I read, please tell me how important each is to you when making your decision to engage in any of the activities you provided a "likely" response to. Please tell me if each of the following features is very important, somewhat important, just slightly important or not at all important in making your decision to engage in any of the activities.

	Very Important	Somewhat Important	Just Slightly Important	Not at all Important
8. Safety, like extra security	267	89	30	11
9. Cleanliness, like extra trash pick-up, steam cleaning and graffiti removal	245	97	45	10
10. Appearance, like plants, flowers and landscaping	206	131	49	11
11. New businesses and restaurants to fill empty storefronts	218	118	42	19
12. Good communication channels to inform me about the Arts District and its offerings	185	109	71	32

### ONLY AMONG THOSE WHO LIVE WITHIN THE ARTS DISTRICT PROPERTY-BASED BUSINESS IMPROVEMENT AREA IN Q.A. (n=88)

	Very Important	Somewhat Important	Just Slightly Important	Not at all Important	No Answer/ Don't Know
13. How important were any of the features I just read [Q.8-Q.12] in making your decision to live within the Arts District?	53	17	5	10	3

## SUMMARY

Likely to perform at least one non-strolling/transit connection activity in Q1-Q7:	<b>Total</b> 397 (100%)
Not at all likely to perform any non-strolling/transit connection activities in Q1-Q7:	0 (0%)
Not at all likely to perform any non-strolling/transit connection activities and said "Not at all important" to all features in Q.8-12:	0 (0%)
Not at all likely to perform any non-strolling/transit connection activities and said "Not at all important" OR "Just slightly important" to all features in Q.8-12*:	0 (0%)

\* Factoring in "just slightly important" with the "not at all important" responses does not yield any difference in the benefit calculation.
